

Personal Details

Name: Anıl Kuş
Address: Bahçelievler mah. 1853 sk. 19/3, Yenişehir, Mersin/Türkiye
Email: anilkus01@gmail.com
Date of birth: 1992
Nationality: Turkish
Driving License: B Class
Personal Website: anilkus.com

Education

2024 – Ongoing : Mersin University, PhD in Computer Engineering, Mersin/Turkey.
2021- 2023 : Mersin University, MSc Degree in Computer Engineering, Mersin/Turkey.
2011 – 2015: Bahcesehir University, B.Sc in Software Engineering (%100 English), İstanbul/Turkey.
2012 – 2013: Bahcesehir University Berlin Campus, Exchange Programme (%100 English) ,Berlin/Germany .
2011 – 2012: Bahcesehir University, English Preparatory School, İstanbul/Turkey.

Work Experience

2025-Ongoing

Lecturer, Yozgat Bozok University, Bogazliyan Vocational School, Department of Computer Technologies, Yozgat/Turkey.

2019- 2025

Lecturer and Researcher, Toros University, Department of Computer Technologies, Mersin /Turkey.

-Lecturer at Department of Computer Technologies, Project Manager & Co-founder of Smartlab Tech. Center.

-2019/2021 Head of Computer Technologies Department

-2021/2023 Assistant Director, Vocational School

2017- 2019

IT Engineer, Private Seyhan Schools, Adana/Turkey.

-Providing technical support to end-users, assisting them with software and hardware issues, troubleshooting problems, and resolving technical issues either remotely or on-site.

2016-2017

Software Engineer, Wirelesssystem, Adana/Turkey.

-Developing web applications from front-end to back-end using programming languages such as HTML/CSS, JavaScript, and PHP.

Internship

2013- 2014: Summer Term Intern Engineer, Gen Yazılım, Istanbul

Tasks: Worked with mobile application developers, supported both frontend and backend teams.

Other Work experience

2023 : Mentor, Kaggle, KaggleX BIPOC Mentorship Program, Remote

2021-Ongoing: Co-founder, Smartlab Technology Center, Toros University/Mersin.

2016- 2017: English Educator, Public Education Center, Adana/Turkey.

Projects and Patents

2025: Control And Evaluation System For Smart Refrigerators, Utility Model

The invention relates to a refrigerator designed to preserve various types of food, such as red/white meat, fruits, and vegetables, in a cold environment without spoiling. Its key feature is an artificial intelligence-supported spoilage detection and evaluation system that determines whether the food inside has spoiled based on its expiration date and color, notifies the user, and provides customized recipes based on the available ingredients in the refrigerator (Officially Registered).

2023-Ongoing: Enabling multilingual eye-tracking data collection for human and machine language processing research (MultipleYE), CA21131, COST (European Cooperation in Science and Technology)

2023-Ongoing: European network for Web-centred linguistic data science (NexusLinguarum), CA18209, COST (European Cooperation in Science and Technology)

2023: SmartGate, *The invention relates to a high-security smart door incorporating advanced software technology, developed for structures that separate indoor and outdoor environments in homes and workplaces, while also providing entry from the external environment into the home or workplace (Officially Registered).*

Honors & Awards

2024: SmartLab & Toros University ranked 7th in patent and utility model applications for the year 2023, with a total of 26 applications. In the thematic area of Food, it secured the 5th position in the list.

2023: Autonomous Harvest Machine, *Project, Finalist in Teknofest Contest (Autonomous harvesting machine that can collect crops from short trees using image processing tech.)* (<https://github.com/amarhany20/Teknofest-Autonomous-Harvesting-Robot-Computer-Vision-Backend>)

2022: Metastasis Risk Prediction Radiomics Model in Musculoskeletal Sarcomas Using PET/CT, *H-INNOVA International Competition, Portugal, Final Project*

Certificates

2025 : CISPA-ELLIS-Summer School 2025 - Trustworthy AI, Saarbrücken, Germany.

2025 : Summer AI Lab, Masaryk University, Brno, Czechia.

2023: Graduate Mentoring Programme, Bahcesehir University,Istanbul.

2022: Python Basics for Data Science, IBM.

2022: Patent Awareness and Information Training, Turkish Patent Movement Platform.

2021: IT Law, BTK Academy.

2021: Introduction to Machine Learning, AI Global Hub.

2020: Advanced Entrepreneurship, KOSGEB.

2018: Deutsch A1-A2, Istanbul Business Institute

2015: Asp.Net/Mvc, Wissen Academy.

2013: Windows Phone / Mobile Application, Wissen Academy.

Teaching Experience

2024 - 2025: Mobile Application Programming, MPR 001

2024 - 2025: Php Programming, BPR 709

2024 – 2025: Database Management Systems, BPR 122

2023 – 2024: Python Programming, BLP 211

2019 – 2024: Web Programming I, BLP 106

2019 – 2024: Web Programming II, BLP 225

2022 – 2024: Introduction to Software Technologies, BCT207

2022 – 2024: Introduction to Artificial Intelligence, BCT201

2022 – 2024: Information Technologies, TGT 126

2022 – 2024: Career Planning, KRY 102

2019 – 2021: Basic Programming and Algorithm I, BCT121

2019 – 2021: Basic Programming and Algorithm II, BCT221

2019 – 2021: Social Engineering, BCT125

2021 – 2024: Web Design, SADS 157
